NATIONAL MAPPING AND RESOURCE INFORMATION AUTHORITY

Notices to Mariners – Philippine edition are now on- line at
[http:// www.namria.gov.ph/download.php#publications](http://www.namria.gov.ph/download.php#publications)

Subscription may be requested thru e-mail at maritime.affairs@namria.gov.ph

THE PHILIPPINE NOTICES TO MARINERS is the monthly publication produced by the Hydrography Branch of the National Mapping and Resource Information Authority (NAMRIA). It contains the recent charts correction data, updates to nautical publications, and other information that is vital for the safety of navigation on Philippine waters.

Copies in digital format may be obtained by sending a request through e-mail address: css.gismb@namria.gov.ph or by downloading at the NAMRIA website: www.namria.gov.ph/download.php.

Masters of vessels and other concerned are requested to advance any report of dangers to navigation and other information affecting Philippine Charts and Coast Pilots which may come to their attention to the **Director, Hydrography Branch**. If such information warrants urgent attention like for instance the non-existence of aids to navigation or failure of light beacons or similar structure or discovery of new shoals, all concerned are requested to contact NAMRIA directly through the following portals:

Mail: NAMRIA-Hydrography Branch,
421 Barraca St San Nicolas, 1010 Manila, Philippines
E-mail: maritime.affairs@namria.gov.ph
Fax: (+632) 8242-2090

The Hydrographic Note form at the back-cover page of this publication must be used in reporting information on dangers to navigation, lighted aids, and other features that should be included in the nautical charts.

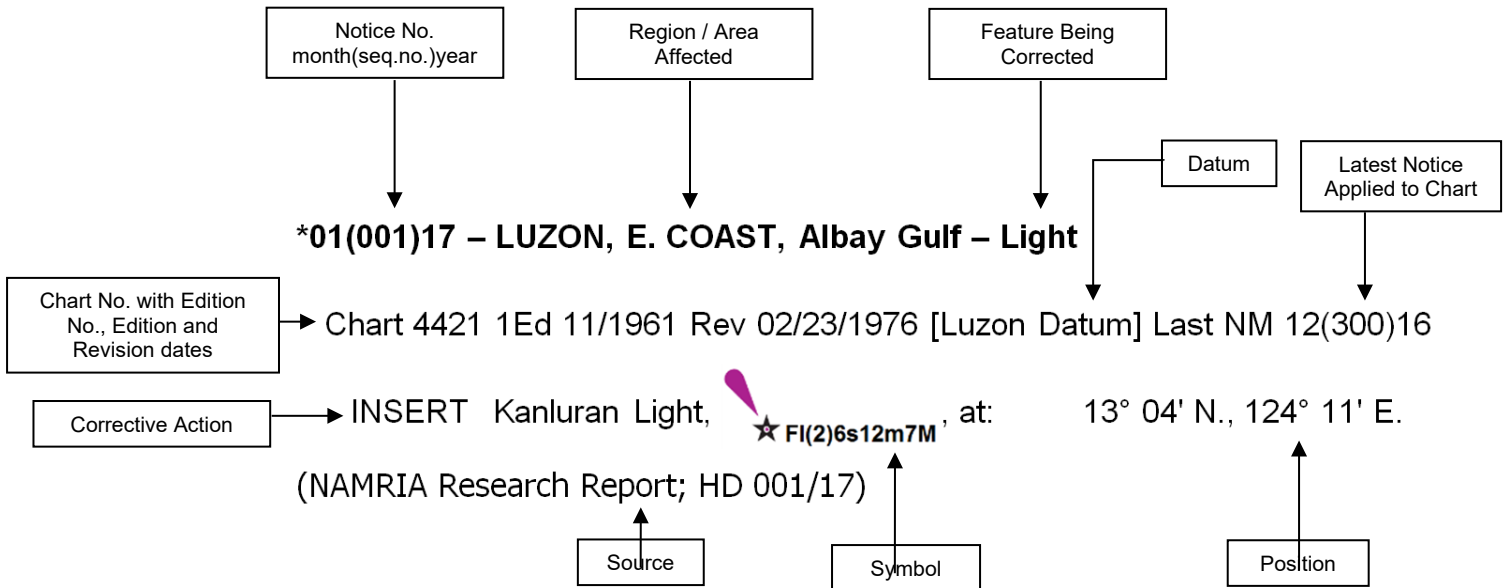

Subscribe to the **Philippine Online Maritime Safety Information System (OMSIS)**, <http://namria.gov.ph/omsis/landing.aspx> to access the Nautical Chart Corrections Service (e-NCC), Cumulative List of Notices to Mariners, and online Hydrographic Notes (e-HNote).

Explanatory Notes

- The Philippine Notices to Mariners is divided to following sections:

Section I. Index of Charts Affected – Contains the list of all nautical charts which have been affected by Notices to Mariners and the Notice Numbers which have affected them.

Section II-A. Notices to Mariners - Contains corrections to nautical charts in sequential number with the indication of the month and year of its issuance. The illustration below describes the elements that comprise a typical notice:

Notice No. preceded by asterisk “ * ” indicates that the information is based upon original Philippine source.

Section II-B. Temporary & Preliminary Notices – Contains Notices to Mariners that temporarily affects the nautical charts or have preliminary information that is subject to further verification. The capital “P” or “T” affixed in the number of any notice denotes “preliminary” or “temporary”, respectively.

A list of Temporary and Preliminary Notices that are still in force, as well as those that are canceled, is published in this publication every month. The list may be read on page iv.

Section III-A. Corrections to List of Lights – Contains the corrections to the latest edition of the Philippine List of Lights. The entire entry for each light will be printed and the columns that contains updates will be denoted by an asterisk “ * ”. All columns will be denoted by asterisks in the case of new lights.

This section is intended to be cut out and pasted on the section of the List of Lights that is being corrected.

All updates to lighted aids, including their operational status, will be published in this section. All directions and bearings are measured clockwise from true the North 000° to 360°. Bearing on lights is based on the observer from seaward toward the light. The visibility assigned to the lights never exceeds the calculated distance at which they can be seen from a height of 4.57 meters above the level of the water at high tide. Changes in aids to navigation, their maintenance and correction of deficiencies in operation are under the operation of the Philippine Coast Guard. Report of defects and recommendations concerning aids to navigation should be forwarded to the Commandant of the Philippine Coast Guard.

Section III-B. Coast Pilot Corrections – Contains the corrections to the latest edition of the Philippine Coast Pilot book.

Section IV. Navigational Warnings – Contains the reprints of all previously issued navigational warnings that are still in effect as of the publication date of this edition of the Philippine Notices to Mariners.

Section V. Publication Notices – Contains the latest updates on the nautical charts, electronic navigational charts, and other nautical publications of NAMRIA.

2. NAMRIA issues Notices to Mariners and Navigational Warnings sourced from private entities, foreign publications, national government agencies, and local government units. Such information is published for the sake of safety of navigation on Philippine waters and does not imply recognition of the legal validity of the information issued by the abovementioned sources.
3. While every effort is made to ensure the accuracy of NAMRIA nautical charts and publications, users should bear in mind that it may not be complete or up-to-date, especially in areas where there are extensive developments. Mariners are advised to exercise prudence and to also refer to all navigational equipment aboard ship and use a lookout during navigation.
4. Masters of vessels are warned that great care should be exercised in navigating Philippine waters because of the low visibility and occasional failure of some navigational lights. Buoys and beacons are sometimes lost or destroyed specially after typhoons. Temporary deficiencies in the standard aids to navigation published in this office may have been corrected before subsequent notice is issued.
5. Positions obtained from satellite navigation systems, such as GPS, are normally referred to the WGS-84 Datum. Such position may only be plotted on NAMRIA nautical charts that are also referred to the WGS-84 Datum. Mariners should take note that due to the age and quality of some of information, such satellite-derived positions may be more accurate than charted details.

List of Temporary and Preliminary Notices

(in force as of 31 January 2023)

01(019)T/23 LUZON, W. Coast, Manila Bay
12(077)T22 MASBATE, NORTH COAST, Masbate Harbor - Beacon
09(040)T22 LUZON, W. COAST, Manila Bay – Buoy
07(032)T/22 LUZON, W. COAST, Manila Bay – Buoy
07(031)T/22 LUZON, W. COAST, Manila Bay – Buoy
05(022)T/22 LUZON, W. COAST, Manila Bay – Buoy
02(006)T/22 LUZON, W. COAST, Manila Bay – Buoys
04(023)P/19 MINDANAO,N. COAST, Iligan Bay – Buoy
11(063)P/18 LUZON, W. COAST, Subic Bay – Wreck
06(033)P/18 LUZON, W. COAST, San Fernando Harbor – Buoy
02(014)P/17 MINDANAO,N. COAST, Butuan Bay – Submarine Pipeline

COAST PILOT CORRECTIONS

Philippine Coast Pilot, 7th Ed. Volume 1

Chapter 4 – Batanes Island

Page 4-3 left column, line 36-40.

Replace:

has an area of 33 sq miles. It is marked by Valanga light (20° 46' 09" N., 121° 49' 03" E. in WGS84 Datum) displayed from a white tower at the steep cliff SW of the boat landing. There is a radio station, postal services, and mobile phone communication. An airport, with irregular flights to Basco, is located at the S part of the island. The government maintains a district hospital with a physician-in-charge.

Page 4-4 right column, line 30-32.

Replace:

anchor between the mainland and the island (Mahatao shelter port) located 0.3 mile N of the church. A causeway, connecting the island to the mainland, protects the anchorage from the N. Mahatao Shelter Port light (20° 25' 10.11" N., 121° 56' 45.48" E. in WGS84 Datum) is displayed S of the shelter port entrance.

Page 4-5 right column, line 18-19.

Replace:

Major Light - Sabtang North Light (20° 20' 20"N., 121° 52' 19"E. in WGS84 Datum) is displayed from a prominent tower on

Page 4-4 right column, line 45.

Insert:

Prominent Feature – Ivana Light (20° 21' 58" N., 121° 54' 50" E. in WGS84 Datum) is displayed from a white tower N of Ivana port. The light is part of the tourist attraction in the municipality.

Chapter 7 – Visayan Islands and Waters

Page 7-4 right column, line 59.

Replace:

121° 59' 20"E.) is displayed from a white tower about 300 m from the

Page 7-5 left column, line 03.

Replace:

town of Odiongan. The structure is not lighted and is only for tourism.

Page 7-5 left column, line 15-16.

Replace:

Berthing Facilities include the 57 m long concrete pier connected to a 209 m long rock causeway, one (1) breasting dolphin and four (4) RoRo

Page 7-5 left column, line 19.

Insert:

Navigational Aids – Odiongan bay leading to the government pier is well lighted and buoyed.

Page 7-6 left column, lines 16-18.

Delete:

Looc Reef Light (12° 14' 51"N., 121° 58' 50"E.), the tower of which is prominent, is shown at the N part of the reef

Page 7-6 left column, lines 16-18.

Insert:

Major Light – Looc Reef Light (12° 14' 44"N., 121° 58' 55"E.), the tower of which is prominent, is shown at the N part of the Reef. A floating hut that serves as a fish feeding station is tied to the light. The light, together with the marine sanctuary, has become a tourist attraction.

V

COAST PILOT CORRECTIONS

Page 7-6 left column, lines 30.

Replace by:

are mostly copra and rice. Various establishments can be in the municipality; such as public market, restaurants, inns, gasoline stations, hospitals, except for banks. There are Automated Teller Machine (ATMs) in the area which dispenses limited amount.

Page 7-6 left column, line 36.

Replace:

Berthing Facilities – Looc Feeder Port, a concrete pier, about 340 m.

Page 7-6 left column, line 40-43.

Replace:

Malbog Port (Port of Manhac), a concrete pier about 91 m long and a causeway of about 98 m, is located at the head

Page 7-8 left column, line 1-3.

Replace:

Berthing Facilities - Projecting SE from the town is a 80.5 m long pier connected to 123.5 m causeway with RoRo ramp. About 200 m SW from this pier is another pier of about 70 m long and has also a RoRo ramp.

Page 7-8 left column, line 4.

Insert:

Navigational Aids – The entrance going to San Agustin Port is well lighted and buoyed. Refer to chart 1544 for details.

INSTRUCTIONS (At the back)			
Subject			
General Locality			
Position:	Latitude	Longitude	
Position fixing system used		Datum	
Charts affected		Edition	
ENCs affected			
Latest Notice to Mariners held			
Nautical Publications affected (Edition No.)			
Details of anomaly or observation			

A replacement copy of Chart No. _____ is required (see Instruction 4).

INSTRUCTIONS

1. Mariners are requested to Notify the Hydrography Branch of the National Mapping and Resource Information Authority (NAMRIA) when New or suspected dangers to Navigation are discovered, changes observed in aids to Navigation, or corrections to publications that are seen to be Necessary. Mariners can also report any ENC display issues experienced.
2. This form and its instructions have been designed to help both the sender and the recipient. It should be used, or followed, closely, whenever appropriate. Copies of this form may be obtained gratis from the Hydrography Branch at 421 Barraca St San Nicolas, Manila, or by requesting thru email at maritime.affairs@namria.gov.ph.
3. **Position:** When a position is defined by sextant angles or bearings (true or magnetic being specified) more than two should be used in order to provide a check. Distances observed by radar should be quoted. However, when there is a series of fixes along a ship's course, only the method of fixing and the objects used Need to be indicated. Latitude and longitude should only be used specifically to position the details when they have been fixed by astronomical observations or GPS and a full description of the method, equipment and datum used should be given.
4. **Paper Charts:** A cutting from the largest scale paper chart is the best medium for forwarding details, the alterations and additions being shown thereon in red. When requested, a New copy will be sent in replacement of a chart that has been used to forward information, or when extensive observations have involved defacement of the observer's chart. If it is preferred to show the amendments on a tracing of the largest scale chart (rather than the chart itself) these should be in red as above, but adequate detail from the chart must be traced in black ink to enable the amendments to be fitted correctly.

Electronic Navigational Charts (ENCs): A screen grab of the largest scale usage band ENC with the alterations and additions being shown thereon in red.
5. **Soundings:** When soundings are obtained, it is important to ensure that full details of the method of collection are included in this report. This includes Not No limited to:
 - a. Make, model, and type of echo sounder used.
 - b. Whether the echo sounder is set to register depths below the surface or below the keel; in the latter case the vessel's draught should be given.
 - c. Time, date and time zone should be given in order that corrections for the height of the tide may be made where Necessary, or a statement made as to what corrections for tide have already been made.
 - d. Where larger amounts of bathymetric data have been gathered, only those areas where a significant difference to the current chart or ENC should be specifically mentioned on the H102. The full data set may also be sent in, with an additional Note added to this effect. If No

significant differences are Noted, the bathymetric data may still be of use, and sent in accordingly. Where full data sets are included, a Note as to the data owner and their willingness for the data to be incorporated into charts and ENCs included.

6. For Echo Sounders that use electronic 'range gating', care should be taken that the correct range scale and appropriate gate width are in use. Older electro-mechanical echo sounders frequently record signals from echoes received back after one or more rotations of the stylus have been completed. Thus, with a set whose maximum range is 500m, an echo recorded at 50m may be from depths of 50m, 550m or even 1050m. Soundings recorded beyond the set's Nominal range can usually be recognized by the following:
 - a. the trace being weaker than Normal for the depth recorded;
 - b. the trace passing through the transmission line;
 - c. the feathery Nature of the trace.

As a check that apparently shoal soundings are Not due to echoes received beyond the set's Nominal range, soundings should be continued until reasonable agreement with charted soundings is reached. However, soundings received after one or more rotations of the stylus can still be useful and should be submitted if they show significant differences from charted depths.

7. Reports which cannot be confirmed or are lacking in certain details should Not be withheld. Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
8. Changes to Port Information should be forwarded using Hydrographic Note for Port Information. Where there is insufficient space on the forms additional sheets should be used.
9. Reports using this form and relevant data should be sent either through mail at NAMRIA-Hydrography Branch, 421 Barraca St San Nicolas, Manila or through email at maritime.affairs@namria.gov.com and maritime.concerns@gmail.com.

An acknowledgement or receipt will be sent and the information then used to the best advantage which may mean immediate action or inclusion in a revision in due course; for these purposes, the UKHO may make reproductions of any material supplied. When a Notice to Mariners is issued, the sender's ship or Name is quoted as authority unless (as sometimes happens) the information is also received from other authorities or the sender states that they do Not want to be Named by using the appropriate tick box on the form. An explanation of the use made of contributions from all parts of the world would be too great a task and a further communication should only be expected when the information is of outstanding value or has unusual features.

NOTES

1. This form lists the information required for Philippine Coast Pilot and has been designed to help the sender and the recipient. The sections should be used as an aide-memoir, being used or followed closely, whenever appropriate. Where there is insufficient space on the form an additional sheet should be used.
2. **Reports which cannot be confirmed or are lacking in certain details should Not be withheld.** Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
3. **DATA PRIVACY STATEMENT:** NAMRIA values your right to data privacy. We are committed to be faithful stewards in safeguarding your personal and sensitive information under the Data Privacy Act of 2012 (RA 10173). We ask for your personal information and email addresses on our Hydrographic Notes so we can confirm receiving the Note. We do Not use your information in any way other than in the furtherance of our vision and mission as Philippines Hydrographic Office.
